

**Important information about your fund transfers to the United States of America.**

We are pleased to announce a new transaction route for remittances to individual accounts in the United States of America. This new enhancement ensures that you will avoid expensive correspondent banking fees on your fund transfers to the United States of America.

To make use of this new enhancement, you may be prompted to:

- Update details of your existing United States of America payees i.e. zip codes, full name and address of your payees.
- Delete your existing payee (through the “manage payee” section) and re-add with the ABA routing number\* for your payee bank in the United States of America. This is a one-time setup and you will not be asked for these details again.

\* An ABA routing number is a nine-digit code that identifies banks in the U.S.

Please note that transactions to corporate payees in the United States of America may continue to attract correspondent banking fees.

For more details, please contact Phone Banking on 600 5222 88.

Thank you for banking with us.
