

Using Pigeonhole Live ("Pigeonhole")

Pigeonhole is an interactive Q&A portal accessible via a laptop or mobile device which allows you to ask questions live at any time during an event or pre-submit them ahead of the event starting.

Pigeonhole also allows everyone who has registered for the call to see the questions that have been submitted, and if you wish, vote on the questions already posted so the ones with most votes get answered first.

Using Pigeonhole before the event:

In order to access this Q&A facility before or during the meeting, please follow the website link or QR code included within your shareholder invitation letter or email.

Click on 'Enter this Q&A'.

Virtual Retail Shareholder Event - 23 November 2020
Welcome! All available sessions are shown below.

All questions ⚡ Top voted ⚡

Please note that your question will not appear on Pigeonhole immediately.

You will also be able to see questions that other people have asked, and vote on the ones that you would like to see answered during the event by clicking the upwards arrow next to the question.

We will prioritise those questions that are the most popular.

During the live Pigeonhole event you can continue to ask new questions or vote on existing questions as described above.

Questions and vote numbers will change in real-time during the event, with the most voted on questions rising to the top of the list.
