CASE STUDY
Financing a sustainable future of shipping

We successfully closed an $80.8 million Senior Secured Facility to SITC International Holding Company Limited (SITC) in June 2019. Two of the vessels financed by the facility are eco-friendly container ships to be delivered by Yangzijiang Shipbuilding Group. These vessels have adopted an eco-design approach to deliver high fuel efficiency and reduced emissions. This is fully aligned with the Group’s Sustainable Finance initiative taking into account environmental, social and governance (ESG) considerations.

As a bank, we recognise that our role in the global shipping industry enables us to deliver responsible finance to promote environmental stewardship throughout the maritime industry value chain. Zero-emission vessels will need to enter the global fleet by 2030. This transaction demonstrates that we are not only serving both our clients and institutions to improve decision-making at a strategic level but will also shape a better future for the global shipping industry.

Region overview

The Group has a long-standing and deep franchise across the ASEAN & South Asia region. As the only international bank present in all 10 ASEAN countries and with meaningful operations across many key South Asian markets, we are in a strong position to be the ‘go-to’ banking partner for our clients. The two markets in the region contributing the highest income are Singapore and India, where we have had a deep-rooted presence for more than 160 years.

The region contributes over a quarter of the Group’s income. Within the region, Singapore is home to the majority of our global business leadership and our technology operations, as well as SC Ventures, our innovation hub.

The strong underlying economic growth in the ASEAN & South Asia region enables us to help our clients achieve their growth ambitions and sustainably improve returns. The region is benefiting from rising trade flows, including activity generated from the Belt & Road initiative, continued strong investment and a rising middle class which is driving consumption growth and improving digital connectivity.

Strategic priorities

- Leverage the strength of our international network to support our clients’ cross-border trade and investment activities across the high-growth ASEAN and South Asia corridors
- Deliver comprehensive client propositions in key markets (Singapore, India, Malaysia and Bangladesh) and a targeted offering in other high-growth markets such as Indonesia and Vietnam

CASE STUDY

Industry-first digital incentive programme

We partnered with Castrol India Limited, one of India’s leading lubricant players, to digitise the way its mechanics and retailers receive incentive payments. Using the new mobile platform, they can scan QR codes on lubricant products and receive their payments instantaneously, instead of relying on physical coupons which often took months to process. In 2019, Castrol facilitated 100,000 incentive coupons daily for rewards aggregating $857,000 a month. This innovation encourages digital upskilling in a traditionally manual field, promotes financial inclusion, and enhances the level of trust and transparency with which Castrol engages with its customers.
Africa & Middle East

Region overview
We have a deep-rooted heritage of over 160 years in Africa & Middle East and are present in 25 markets, of which the UAE, Nigeria, Pakistan and Kenya are the largest by income. We are present in the largest number of sub-Saharan African markets of any international banking group.

A rich history, deep client relationships and a unique footprint in the region and across key origination centres in Asia, Europe and the Americas enable us to seamlessly support our clients. Africa & Middle East is an important part of global trade and investment corridors, including those on the China’s Belt and Road initiative and we are well placed to facilitate these flows.

Macroeconomic and geopolitical headwinds in 2019 have impacted income momentum across both the Middle East and Africa; however, we remain confident that the opportunities in the region will support long-term sustainable growth for the Group. We continue to invest selectively and drive efficiencies.

Strategic priorities
- Provide best-in-class structuring and financing solutions and drive origination through client initiatives
- Invest to accelerate growth in differentiated international network and affluent client businesses
- Invest in market-leading digitalisation initiatives in Retail Banking to protect and grow market share in core markets; continue with our retail transformation agenda to recalibrate our network and streamline structures
- De-risk and improve the quality of income with continuous focus on return enhancements
- Practically a ‘zero touch’ platform, with account-opening and servicing without the need to visit a branch
- This efficiency has translated into a more targeted branch footprint, allowing us to reduce our number of branches by one-third in the last two years
- Despite continued geopolitical and macroeconomic headwinds, improved asset quality and good risk discipline led to lower credit impairments
- Cost efficiencies have allowed investments to continue through the cycle

Performance highlights
- Underlying operating profit before taxation of $684 million was 29 per cent higher with lower expenses and improved credit impairment partially offset by a 2 per cent decrease in income
- Underlying operating income of $2,562 million was down 2 per cent but up 3 per cent on a constant currency basis, with a good performance in our Financial Markets business across the region. Middle East, North Africa and Pakistan were flat, and Africa was down 3 per cent
- Strong performances in Financial Markets and Corporate Finance were offset by margin compression in Retail Banking and lower Wealth Management in UAE
- Loans and advances to customers were up 5 per cent and customer accounts were down 2 per cent

CASE STUDY
Infrastructure and clean tech

In 2019, we provided a $2.4 billion project finance facility for the development, construction, operation and maintenance of a 700MW concentrated solar power (CSP) and 250MW photovoltaic plant in Dubai.

The project will provide clean energy to over 320,000 residences in Dubai, while reducing 1.4 million tonnes of carbon emissions a year. Standard Chartered acted as mandated lead arranger, documentation bank, pre-hedging bank, offshore account bank, intercreditor agent, and offshore security trustee.

The project is our first CSP financing in the region and the largest limited recourse project finance deal in Dubai. It is also the largest regional investment into the renewable sector for a single project.
Europe & Americas

Region overview
The Group supports clients in Europe & Americas through hubs in London and New York as well as a presence in several European and Latin American markets. Our extensive expertise in working across our footprint in Asia, Africa and the Middle East allows us to offer our clients unique network and product capabilities.

The region is a significant income origination engine for the Group’s Corporate & Institutional Banking business. Clients based in Europe & Americas generate over one-third of Corporate & Institutional Banking income, with two-thirds of that income booked in the Group’s other regions where the service is provided.

The region is home to the Group’s two biggest payment clearing centres and the largest trading room. Over 80 per cent of the region’s income derives from Financial Markets and Transaction Banking products. The business we do across the Group with clients based in Europe & Americas therefore generates above average returns.

Our Private Banking business focuses on serving clients with linkages to our footprint markets.

There was a year-on-year reduction in income of $108m from a swing in the debit valuation adjustment (DVA) due to an improvement in the Group’s own Credit Risk
- Income generated by Europe & Americas clients, but booked elsewhere in our network, increased by 8 per cent
- Loans and advances to customers grew 10 per cent year-on-year and customer accounts grew 7 per cent

CASE STUDY
Launching our first Sustainability Bond
Standard Chartered successfully issued its first Sustainability Bond, focused on emerging markets, a landmark transaction that was over six times subscribed.

At EUR 500 million, the proceeds of the bond will be used to provide finance in areas aligned with the United Nations Sustainable Development Goals (SDGs) including clean energy projects, smaller business lending and microfinance loans helping drive employment, growth and prosperity across emerging markets.

While 90 per cent of SDG financing needs are covered in developed countries, only 60 per cent of the investment needs are addressed in emerging and developing regions, and as low as 10 per cent in Africa. Our unique network and Here for good brand promise positions us well to address this problem.

Since the issuance of our inaugural Sustainability Bond, we have continued to innovate new Sustainable products, including the completion of our first LMA Green Loan Compliant trade financing, which was the first of its kind in the market.
