

# Our first Sustainability Bond: the facts and figures

Our first Sustainability Bond aims to tackle some of the world's biggest challenges in underfunded regions, bringing financing to where it matters most.

The majority of bond proceeds will finance the following Sustainable Development Goals (SDGs)

Industry, innovation and infrastructure

Good jobs and economic growth

Affordable and clean energy

## The bond in numbers

**EUR500m**  
raised

Our first sustainability bond will focus on low-income countries\*

Tenor

## Why it's needed – bridging the funding gap

## What the bond proceeds could be used for

Wind turbines

Solar panels

Railways

Financing entrepreneurs

Microfinance loans

Water treatment

\*focusing on least, low and lower-middle income development assisted countries, as per the OECD list
