Risk Disclosure Statement for Equity Linked Investment Services:

- The price or value of the Equity Linked Investments (ELIs) fluctuates, sometimes dramatically and the worst case may result in loss of your entire investment amount. It is as likely that losses will be incurred rather than profit made as a result of subscribing for, buying and selling the ELIs. Investors should therefore carefully consider whether such transactions are suitable in light of their financial position and investment objectives before entering into such transactions.
- Not principal protected: ELIs are not principal protected. You may suffer a loss if the prices of the underlying asset(s) of an ELI go against your view. In extreme cases, you could lose your entire investment.
- Limited potential gain: The potential return on your ELI may be capped at a predetermined level specified by the issuer.
- Credit risk of the issuer: When you purchase an ELI, you rely on the credit-worthiness of the issuer. In case of default or insolvency of the issuer, you will have to rely on your distributor to take action on your behalf to claim as an unsecured creditor of the issuer regardless of the performance of the reference asset(s).
- No collateral: ELIs are not secured on any assets or collateral.
- Limited market making: Issuers may provide limited market making arrangement for their ELIs. However, if you try to terminate an ELI before maturity under the market making arrangement provided by the issuer, you may receive an amount which is substantially less than your original investment amount.
- Investing in an ELI is not the same as investing in the reference asset(s): during the investment period, you have no rights in the reference asset(s). Changes in the market price of such reference asset(s) may not lead to a corresponding change in the market value and/or potential payout of the ELI.
- Conflicts of interest: Issuer of an ELI may also play different roles, such as the arranger, the market agent and the calculation agent of the ELI. Conflicts of interest may arise from the different roles played by the issuer, its subsidiaries and affiliates in connection with the ELI.
- Investors should consider their own investment objectives, investment experience, financial situation and risk tolerance level.
- Investors should carefully read the relevant offering documents and the Terms & Conditions of relevant product/service before making any investment decision.

Risk relating to Renminbi ("RMB"):

- RMB exchange rate, like any other currency, is affected by a wide range of factors and is subject to fluctuations. Such fluctuations may result in gains and losses in the event that the client subsequently converts RMB to another currency (including Hong Kong Dollars); and

- RMB is currently not freely convertible and conversion of RMB through banks in Hong Kong is subject to restrictions specified by the Bank and regulatory requirements applicable from time to time. The actual conversion arrangement will depend on the restrictions prevailing at the relevant time.

Risk Disclosure Statement for Investment Fund Services:

- Investors should carefully read the relevant offering documents and in particular the Terms & Conditions contained therein, the investment policies and the risk factors and latest financial results information. - Investors should ensure they fully understand the risks associated with unit trusts or mutual funds and should also consider their own investment objective, investment experience, financial situation and risk tolerance level before making any investment decision.

Risk Disclosure Statement for Premium Deposit:

- Investment involves risks. The worst case will result in loss of your entire investment amount.
