- If you are not happy with your policy, you have a right to cancel it within the cooling-off period and obtain a refund of any premiums paid, less any withdrawals (if applicable), provided that no claim has been made under the policy. A written notice signed by you should be received directly by Prudential at 8/F, Prudential Tower, The Gateway Harbour City, 21 Canton Road, Tsim Sha Tsui, Kowloon, Hong Kong within the cooling-off period (that is, within 21 days after the delivery of the policy or issue of a notice (informing you or your representative about the availability of the policy and expiry date of the cooling-off period), whichever is the earlier). After the expiration of the cooling-off period, if you cancel the policy before the end of the term, the projected total cash value (if applicable) may be less than the total premium you have paid. You should check with Prudential if you have any doubt regarding your cooling-off right.

- Limited potential gain: the potential return on your ELI may be capped at a predetermined level specified by the issuer.
- Credit risk of the issuer: when you purchase an ELI, you rely on the credit-worthiness of the issuer. In case of default or insolvency of the issuer, you will have to rely on your distributor to take action on your behalf to claim as an unsecured creditor of the issuer regardless of the performance of the reference asset(s).
- No collateral: ELIs are not secured on any assets or collateral.
- Limited market making: issuers may provide limited market making arrangement for their ELIs. However, if you try to terminate an ELI before maturity under the market making arrangement provided by the issuer, you may receive an amount which is substantially less than your original investment amount.
- Investing in an ELI is not the same as investing in the reference asset(s): during the investment period, you have no rights in the reference asset(s). Changes in the market price of such reference asset(s) may not lead to a corresponding change in the market value and/or potential payout of the ELI.
- Conflicts of interest: issuer of an ELI may also play different roles, such as the arranger, the market agent and the calculation agent of the ELI. Conflicts of interest may arise

from the different roles played by the issuer, its subsidiaries and affiliates in connection with the ELI.
