

## **e-Reports – A Digital Way for a Sustainable Future**

As part of the go green initiative, please be informed that the Unit Trust annual/ interim reports will be replaced with electronic reports (“e-Reports”) with immediate effect.

These e-Reports will be made available in a short message service (“SMS”) that contains a website link for viewing and download. Hardcopy will still be available upon request at any of our branches.

This initiative is part of our continuous effort to reduce usage of papers in all areas of our operations and we thank you for joining us in this commitment towards building a more sustainable future for generations to come.

Please do not hesitate to speak to our branch personnel should there still be a requirement for hardcopy reports.

Thank you for banking with us.

Here for good
