

Notification: Termination of SmartGoals and client auto-migration to SmartDirect

We're always finding ways to create more efficient banking experiences for you. In line with this, we are streamlining our platforms by phasing out our SmartGoals service and migrating existing clients to SmartDirect, our award-winning mutual funds investing service on SC Mobile and iBanking.

Please see below for a quick summary on the phase-out plan:

From 29 November 2021 onwards, SmartGoals service on SC Mobile and iBanking will not be available for new goal creation. However, existing SmartGoals clients will still be able to view and redeem their existing goals from SmartGoals service until March 2022.

From mid-March 2022 onwards, SmartGoals service will be completely phased out from both, SC Mobile and iBanking. Existing SmartGoals clients (clients with holdings in SmartGoals) will be auto-migrated to SmartDirect on SC Mobile and iBanking. Subsequently, clients can use SmartDirect to view and transact their investment holdings.
