

Notification – Standard Chartered Mobile App Compulsory Upgrade to Latest Version

Please be informed that effective 9th October 2019, we will introduce two enhanced features in our Malaysia SC Mobile App as part of our continuous efforts to provide the best mobile banking experience to all our clients.

What does this mean for you?

- a. The new version of SC Malaysia Mobile App will be made available on 9th October 2019 (iOS: Version 8.1; Android: Version 7.1). When you access the app on this date, you may be prompted to update to the latest version as seen below.
- b. If you have auto-app update turned on for your phone, the app will update itself in the background and you may not see this message.

- c. The new version of the app will have the following new features:

- **Dynamic Product Banner** at pre-login page to show you personalized products and deals that are tailored for your needs.
- **Touch ID Fingerprint** login is now supported for more Android devices.
