

# What's your wealth expectancy?

We asked 10,000 people across 10 markets\* about theirs

On average they're set for a peak wealth at age 60 of over

## US\$1,000,000

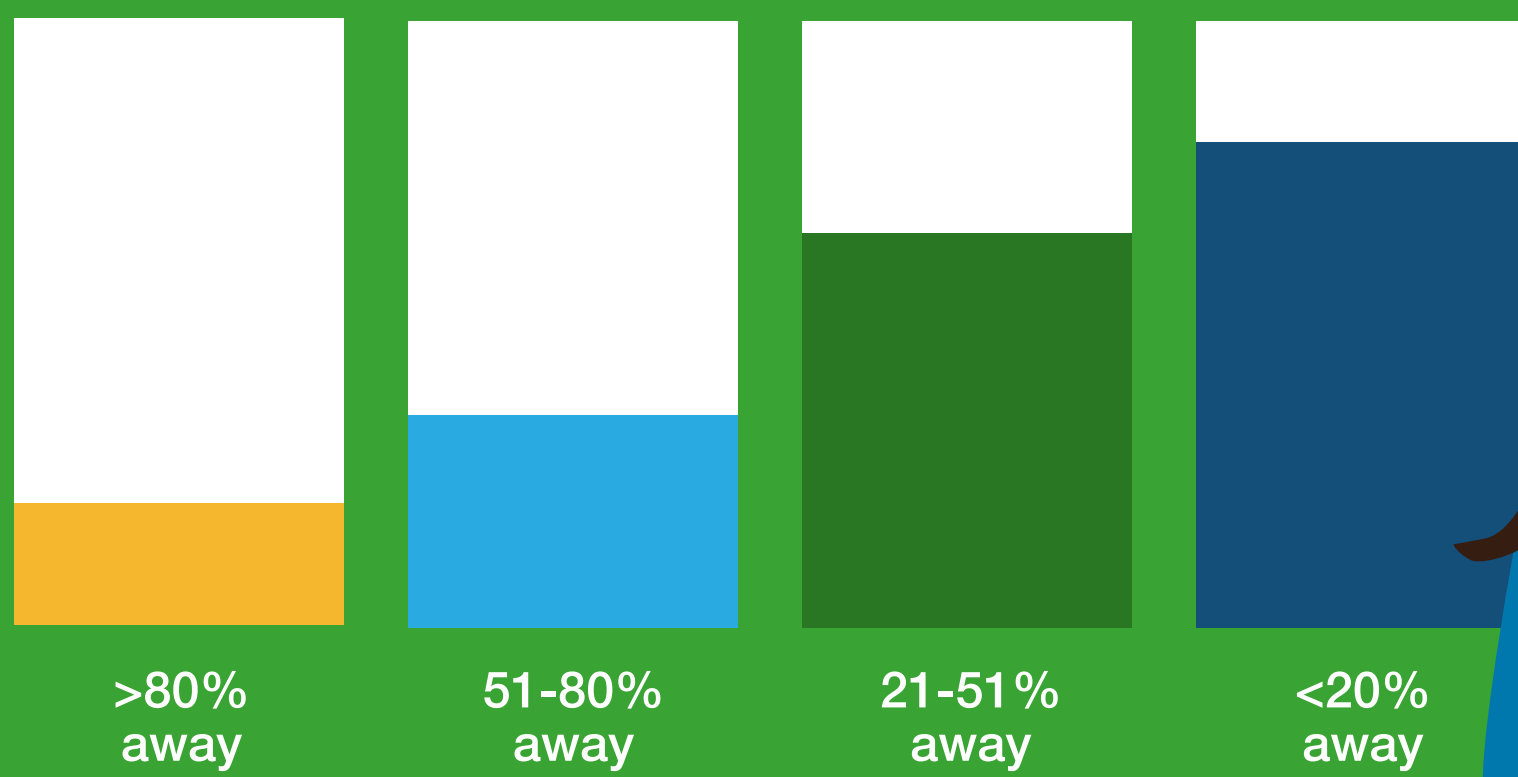

## Will you be able to fund your goals?

6 out of 10 will fall short by 50% or more

## How far are you from your target?

Some are further than others

## How can you bridge the gap?

Simple savings may not be enough
