

Discontinuation of EZ-Link facility for newly issued, renewal and replacement Standard Chartered Unlimited Cashback Credit Cards issued on or after 8 December 2019

All newly issued, renewal and replacement Standard Chartered Unlimited Cashback Credit Cards (each an “Unlimited Card”), which are issued on or after 8 December 2019, will not be pre-enrolled with the EZ-Reload by Card functionality and will not have the EZ-Link facility.

Unlimited Cards issued prior to 8 December 2019 will continue to (a) have the EZ-Link Facility enabled on it; and (b) be pre-enrolled with the EZ-Reload by Card functionality. Unlimited Card cardholders can activate the EZ-Reload by Card functionality at any General Ticketing Machine located in Mass Rapid Transit stations and bus interchanges using the ARN code sent to the Unlimited Card cardholder by EZ Link Pte Ltd upon card activation.

You may use the EZ-Link Facility for the payment of: (a) fare payment on trains and standard buses; and (b) payment of Qualified Goods and/or Services offered by Qualified Merchants until the expiry of your Unlimited Card.

For more information, please refer to the Frequently Asked Questions [here](#).
