Min. tenor 1 week

Any premature upliftment is subject to penalty charges as set out below:

Total Penalty = Interest Accrued + Handling Fee (USD25) + Replacement Cost

Replacement Cost = (Current Market Day Rate – Contract Rate) x Remaining Days to Maturity

The Replacement Cost can be zero if the Current Market Rate at the date of the premature upliftment is less than the Contract Rate.

Current Market Rate refers to the current interest rate, which is based on the market conditions for the applicable currency, at the date of the premature upliftment.

Contract Rate refers to the Interest Rate that would have been payable to you if you held the Time Deposit until maturity.

Note
Standard Chartered reserves the right to forfeit all or any part of interest awarded at a promotional rate in respect of a Time Deposit if you withdraw the Time Deposit before it matures.

Any renewal of a Time Deposit is at the Bank’s prevailing Time Deposit board rate for the same tenor.
