

Standard Chartered Bank (Singapore) Limited
Registration Number: 201224747C

LCR Public Disclosure
Quarter ended 30 June 2020

Liquidity Coverage Ratio

The Liquidity Coverage Ratio (“LCR”) ensures that Standard Chartered Bank (Singapore) Limited (the “Bank”) maintains sufficient unencumbered High Quality Liquid Assets (“HQLA”) to survive a significant liquidity stress scenario over a 30-day horizon. The purpose of this disclosure is to provide the information pursuant to MAS Notice 651 “Liquidity Coverage Ratio Disclosure”.

The Bank has been subjected to the LCR requirements under the MAS Notice 649 “Minimum Liquid Assets and Liquidity Coverage Ratio” from 1 Jan 2016. Under MAS 649, the Bank which has been notified by the Authority as a Domestic Systemically Important Bank (“DSIB”) is required to maintain an all-currency LCR requirement of 50% and Singapore Dollar LCR requirement of 100%.

Liquidity Management

Daily liquidity management is carried out by the Treasury Markets (“TM”) desk who regulates the day to day liquidity needs of the Bank.

Funding is managed centrally in the country. As such, funding decisions of the Bank are considered in concert with the operations of the Standard Chartered Bank Singapore Branch. Such decisions shall take into account regulatory requirements while ensuring flexibility in managing liquidity and the pool of liquid assets.

Funding and liquidity management strategies are regularly discussed during Asset and Liability Committee (“ALCO”) meeting. Such discussions include analysis on deposit momentum and tenure, funding gaps and concentration, monitoring of short and long-term liquidity ratios (including LCR). The Bank utilises internal Management Action Triggers (“MATs”) which act as early warning indicators and safeguards to ensure sufficient liquidity buffers at all times. The Bank also has in place contingency funding plans that identify specific management action that can be invoked in times of liquidity crisis.

Composition of High Quality Liquid Assets (“HQLA”)

The Bank holds a diversified portfolio of HQLA that are available to meet the liquidity needs under stress scenarios. The HQLA comprise primarily of Level 1 securities in cash and central bank reserves, bonds issued by central banks and high rated supranational entities. Such Level 1 securities do not have any attached haircuts in the portfolio of HQLA.

SCBSL has a small portion of holdings in Level 2 securities. Level 2A securities comprise of statutory board securities and covered bonds issued by financial institutions. Level 2B securities comprise Residential Mortgage Backed Securities (“RMBS”). Level 2A and 2B securities are subject to weights of 85% and 75% respectively as prescribed by the LCR rules.

Funding Sources

The Bank holds a funding base that is driven by Current and Savings Account “CASA” and term deposits from retail and high net worth customers. This is complemented by wholesale funding from operational and non-operational deposits held with commercial clients of the Bank.

Given the Bank’s funding sources, its LCR is sensitive to changes in (a) balance sheet movements resulting from retail and commercial loan/deposits activities as well as intra-group borrowing and lending (b) maturity movements in the balance sheet and balances falling into and out of the 30-day tenor. LCR is also to a lesser extent sensitive to HQLA movements driven by changes in balances with central banks and bond holdings with supranational entities and statutory boards.

Currency Mismatch

The Bank predominantly operates in the Singapore Currency consistent with its operating location. Excess funds are swapped and the Bank may utilise swap markets to support currency needs and loan demand.

Derivative Exposures and Potential Collateral Calls

Derivative flows comprise mainly of foreign exchange flows driven by swaps, forwards and spot transactions. Such derivative positions are marked-to-market and collaterals are posted to and received from margined counterparties. Such collateral posted/received are utilised in the computation of net cash outflows.

Quantitative Disclosure

The data presented in the quantitative disclosure (Table 1 & 2 below) are simple averages of daily observations over the preceding quarter.

In the second quarter of 2020, the average all-currency and SGD LCR improved respectively from 147% in Q1 2020 to 186%, and 228% in Q1 2020 to 271%.

These improvements largely represent shoring up of liquidity to support medium term asset growth plans.

The average all-currency and SGD LCR remained well above the regulatory minimums of 50% and 100% respectively.

Table: 1
Average All-currency LCR¹ for the quarter ended 30 June 2020

ALL Currency LCR (in SGD millions)		2nd Quarter Average	
		UNWEIGHTED	WEIGHTED VALUE
		91 data points	
HIGH-QUALITY LIQUID ASSETS			
1	Total high-quality liquid assets (HQLA)		27,157
CASH OUTFLOWS			
2	Retail deposits and deposits from small business customers, of which:	37,644	3,511
3	Stable deposits	9,373	698
4	Less stable deposits	28,271	2,813
5	Unsecured wholesale funding, of which:	44,255	19,376
6	Operational deposits (all counterparties) and deposits in networks of cooperative banks	18,787	4,697
7	Non-operational deposits (all counterparties)	25,320	14,531
8	Unsecured debt	148	148
9	Secured wholesale funding		42
10	Additional requirements, of which:	5,837	1,108
11	Outflows related to derivative exposures and other collateral requirements	558	558
12	Outflows related to loss of funding on debt products	-	-
13	Credit and liquidity facilities	5,279	550
14	Other contractual funding obligations	2,464	2,464
15	Other contingent funding obligations	6,350	191
16	TOTAL CASH OUTFLOWS		26,692
CASH INFLOWS			
17	Secured lending (eg reverse repos)	2,295	917
18	Inflows from fully performing exposures	15,261	10,420
19	Other cash inflows	2,264	720
20	TOTAL CASH INFLOWS	19,820	12,057
21	TOTAL HQLA		27,157
22	TOTAL NET CASH OUTFLOWS		14,635
23	LIQUIDITY COVERAGE RATIO (%)		186%

18	Inflows from fully performing exposures	3,534	2,977
19	Other cash inflows	7,897	7,633
20	TOTAL CASH INFLOWS	11,854	10,610
21	TOTAL HQLA		20,506
22	TOTAL NET CASH OUTFLOWS		7,539
23	LIQUIDITY COVERAGE RATIO (%)		272%

1

a) The unweighted amounts refer to cash flows due or callable within 30 days.

b) The LCR is computed as an average of observations of LCR during the quarter. This may not be equal to an LCR computed with the average values of HQLA and net cash outflows disclosed in the table.

c) Total net cash outflows may not be equal to the total cash outflows minus total cash inflows as the cap on inflows is binding. Cash inflows may be netted against cash outflows up to an aggregate cap of 75% of total cash outflows.
